Launch '15

Plans are underway for the national summer camp in February 2015. Please pray that the speakers and teachers would be well equipped, students and recent grads would have the means and desire to attend, and that all the preparations will go smoothly.

TSCF family

In April, TSCF board member Dennis Fountain lost his home in Wellington to a fire. He and his family may be without a home until some time next year. Please pray that moving or rebuilding goes smoothly, and for continued support for them as they work out the details.

Staff

Across the country, and in Ecuador with our partners in CECE, there are positions open for staff workers and team leaders. Please pray that men and women who love the Lord and love students will be called and equipped to disciple this generation of servant leaders.

prayermatterscampus

Auckland

EU

Please pray that the combined retreat would go smoothly, and that people would come to know to God through our talks and discussions. Pray also that Jesus Week events will go well, and provide a great opportunity for witnessing on campus.

MIT CF

Please pray that we can build a fellowship of students there who engage in a dynamic witness. Please also give thanks that the remaining group

on South Campus met in the first week of the semester and took ownership of its weekly Bible studies and outreach.

Waikato

Hamilton CF

We thank God for being faithful to us, and for growing us in number over the past year. Please pray for our last quarter of the year in leadership transition, that God will find the right people to lead his group and that he'll call them individually into leadership. Also, that more people will come

prayermatterscampus

to see that there is power in the name of Jesus, that there is urgency in the gospel, and that we are not just a social group. Lastly, that people in HCF learn to truly love others not just by words, but by action.

Palmerston North

MUCF

We are hosting an op-shop ball in September to raise money for IFES. Please pray that it would be successful. We are also looking for new leaders for next year. Pray that God would equip and encourage students to step into these roles, and that they'd be blessed in their service.

Wellington

CF

Praise God for our new leaders, and for the

relaxed, friendly atmosphere at Thursday meetings. Pray for the new leadership team, for guidance from God for the future and that God will move at Victoria and use us to reach our classmates and grow us to be more like him.

Massey

Praise God for Rev Ian Cook's initiative in bringing together different ministries on this commuter campus. Please pray that we will work well together and find ways to have an impact across the city.

Dunedin

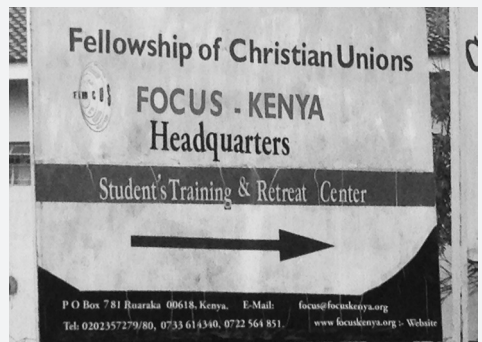

Please pray for plans to start new groups for lawyers at Otago University and for artists at Otago Polytechnic. Ask that there would be students with a vision for witnessing, discipling communities within those disciplines.

FOCUS Kenya

FOCUS has 43,000 students resourced by 23 hardworking staff and a small but growing number of graduates in Kenya. Many graduates struggle with unemployment and under-employment. Because of that, and other challenges, only 400 graduates support the work financially. Please pray that both those who desire to support the work and those who are on the ground will have the means to keep it going.

Please also pray specifically for someone with ministry, marketing technology and database

management skills to join the team, providing critical support to their operations.
