

prayermatters

Auckland

International student ministry

Pray that international students who heard the gospel at midyear camps will put their faith in Christ. And please pray that students who are new in semester two will join the Christian fellowships and outreaches on campuses, and that God would open their hearts to the good news.

Auckland CMF

Please pray for wisdom planning the first Jesus Week at the University of Auckland's Grafton campus, 2–6 October, and that God would powerfully work through students.

Pray also for the Bible studies students are running with classmates who are interested in learning more about Christianity, that God would work in their hearts.

EU

Auckland groups are coming together and taking ownership of Jesus Week, 25–29 September, at the University of Auckland. Pray that they will raise enough money for all that is needed, that the speakers will confirm early and that planning goes smoothly. Pray especially for the students who will be hearing the gospel, that the Spirit would work in their hearts and transform their minds.

TSCF Massey Albany

Staff and students are thankful that the first semester ended stronger than it began, from a numerical point of view. Pray that more students

would join the regular meetings on Wednesdays at noon, looking at Romans, and the prayer meetings on Tuesday mornings.

Waikato

TSCF Hamilton

Give thanks for the outgoing student committee and for Nick Lim, who recently finished several years of service as associate staff. Pray for God's blessing on him and these students in the next season of their lives.

Please pray that the student committee would be united in vision and filled with God's wisdom. Pray that the meetings would be grounded in God's truth and challenge students to lay down more of their lives to serve Jesus at Waikato University.

Praise God for Nick Goodwin, TSCF's new Waikato staff worker, and pray that he will make significant connections early on with students and academics. Pray that he and his family will settle in well to this new season of ministry.

TSCF Wintec

Give thanks for an enthusiastic group of students who meet regularly and formed friendships in semester one. Pray that the students who attended Summit will respond to the teaching and be unified in purpose.

Bay of Plenty

Give thanks for Christian students at Toi Ohomai Institute of Technology in Tauranga, who are pioneering campus groups. Pray that a vibrant

community of students would unite.

Please also pray that the Celebrate Bay of Plenty evening on 19 October will be a great time of encouragement and an opportunity to connect with more Christians in the area.

Otago

Please pray that the connections that groups made on campus and in the community during Ravi Zacharias' visit and with the InterVarsity team's outreach would grow and increase the gospel witness on campus—both between various Christian communities and between Christians and unbelievers.

Otago CMF

Praise God that new leaders have stepped up in semester two. Despite it being a stressful and busy time for med students, three new leaders have joined. They have been a source of new ideas and fresh energy. Praise God also for an encouraging number of students who still come every week.

Please pray for the medical school in general with big exams coming up. Pray that students will serve others, and that the weekly meetings will be encouraging and refreshing.

Otago Physiotherapy CF

Praise God that many second year students have joined. It is an encouragement to see everyone bond inside and outside of the group.

People have invited friends who are on the outskirts of churches and church ministries. Please pray that they will grow in their faith.

Students have already put up their hands to lead the group next year. Praise God for that, and pray that they would grow together in Christ and take opportunities to share Christ with classmates.

And please pray that the second year students will stay on next year, helping the group from the get-go.

Dentistry Christian Group

Students are thankful for the success of their first ever bake sale, raising more than \$150 to support groups in India, Ecuador and Fiji.

Please pray for the weekly meetings to study James, and for the invitations to faculty members to discuss how they have integrated faith with their professional lives.

Pray also that the Lord would transform hearts through the mural project with the team from InterVarsity USA.

CECE Ecuador

Please pray for a new administrative assistant for the CECE office.

Pray also for the consolidation of the staff team, and staff for cities with none.

And as the new semester begins in October, please pray for committed and sacrificial outreach for each of the student groups within their campus community.

TSCF staff

Please pray for those who are considering joining the team, whether as volunteers or as paid staff. Ask that God would make the call clear to those whom he has prepared, and that each of the regional teams would be better resourced to meet the many areas of need.

And please remember current staff workers and team leaders as they help groups prepare leaders for next year. Pray that committed students who are willing to invest in others and committed to growing in faith will take on these responsibilities.
